Meet Allworx® Connect™

The VoIP Communication Platform for the Future

More powerful. More advanced. Allworx Connect, our third-generation family of VoIP communication systems, has good looks and serious specs in one compact package.

Highlights

✔ Economical and scalable models.
✔ High-speed solid state storage subsystem.
✔ Bank-grade HTTPS encryption for access security.
✔ Wall- and rack-mountable.
✔ Interoperability with the latest VoIP standards used by major carriers.
✔ Native Gigabit Ethernet interfaces with VLANs.
✔ Models with or without analog FXO ports.

Powerful communication solutions right out of the box.

Generic SIP Device Registration[1]	●	●	●	●	●

1. Requires an additional advanced software license key(s).
2. A system extension does not have an individual voicemail box (e.g., break room, customer service queue). The maximum number of system extensions is equal to the maximum number of user licenses available for a server.
3. Handsets include Allworx IP phones, activated Allworx Reach licenses, generic SIP devices, and analog devices.
4. Requires a third-party electronic door lock device (not included).
